EDDIE SPAGHETTI, lead singer and bass player for legendary rock-n-roll band THE SUPERSUCKERS, has up and done it: the accursed solo record ("ugh...solo records are so lame!"), titled *The Sauce*. That's right, the irreverent, witty, wise-cracking bastard child of Roger Miller is here to take the piss out of this whole "look-at-me-I'm-an-important-artiste" scene with a record full of his favorite songs. Loose, fun and easy to swallow, *The Sauce* spans seven decades of songwriting and showcases Spaghetti's impeccable song choices and uncanny ability to sing the drinking songs for drinkers who like to drink the drinks.
